

OR5031B

MULTIFUNCTIONAL DIESEL ROAD SWEEPER

多功能柴油扫路机

OR5031B can be equipped with snow shovel, snow removal brush, snow melting spreader, disc mower and other auxiliary tools for operation. It is widely used in cleaning work of urban roads, sidewalks, non-motorized roads, pedestrian streets, squares, parks, parking lots and other places. Especially suitable for narrow curved road cleaning.

OR5031B多功能柴油扫路机可搭配推雪板、除雪滚刷、融雪剂撒布机、盘式割草机等配套辅具进行作业，广泛适用于城市道路、人行道、非机动车道、步行街、广场、公园、停车场等清扫工作。尤其适用于狭窄弯曲的道路清扫。

Item 项目名称	Specification 参数
Engine Type 发动机类型	Import 3 Cylinder Diesel Engine 进口3缸柴油发动机
Engine Power 发动机功率	18.5kw (25HP)
Maximum Sweep Width 最大清扫宽度	2 brushes: 1.4m 3 brushes: 1.9m 双刷: 1.4m 三刷: 1.9m
Cleaning Efficiency 清扫效率	10000-16000m ² /h
Rubbish Bin 垃圾箱容积	500L
Trash Can Dump Height 垃圾箱倾斜高度	1.4m
Tank Capacity 水箱容积	130L
Pipette Diameter 吸管直径	150mm
Length/Caliber Of Suction Hose 抽吸软管长度/口径	4m/0.15m
Fuel Tank Capacity 燃油箱容量	30L
Working Theory Fuel Consumption 工作理论油耗	164g/kwh
Working Speed Range 工作速度范围	1-10km/h
Turning Radius 转弯半径	1.9m
Dimension(L*W*H) 车身尺寸 (长*宽*高)	3080*1160*1950mm
Equipment Quality 装备质量	1050kg
Common Auxiliary Tools (Optional) 常用配套辅具 (选配)	Snow removal brush/Snow Shovel 除雪滚刷/推雪板

--	--	--	---------------------------------------	---

• Strong cleaning ability 清扫能力强

Strong sweeping ability to easily clean dust, leaves, cans and bottles on the road. 强劲清扫能力，能够轻松清除路面上的尘土、树叶和矿泉水瓶。

• 25 horse power and four-wheel drive 25匹马力和四轮驱动

The combination of 25 horse power and high-efficiency four-wheel hydraulic drive ensures a reasonable distribution of driving forces in complex road conditions, can easily handle a wide range of operating conditions. 25匹马力结合高效四轮液压驱动，确保在复杂路况下的驱动力的合理分配，可以轻松应对各种作业情况。

• Low fuel consumption compared with peer 品牌发动机油耗低

The import engine, combined with a reasonable hydraulic system, reduces fuel consumption by 10%-20% compared to the same type of sweeper. 进口发动机配合合理的液压系统使得整车油耗大大降低。

• 4 minutes quick change work device 4分钟快换工作装置

With the "quick switching" concept, you can complete the replacement of various functional tools in 4 minutes, simple operation and efficient. 采用“快速切换”理念，无需工具，即可在四分钟内完成各种功能作业辅具更换，操作简单高效。

• Unique spray dust control system 独特的喷雾控尘系统

Each brush is equipped with a separate spray dust control device, and the dustbin is equipped with a rotating disc type dust control system, which can effectively prevent dust fly. 每个刷把配有独立的喷雾控尘装置，垃圾箱内设有旋转盘式控尘系统，能够很好地抑制扬尘。
